To Whom It May Concern,

As our Convention Planning Committee Chairperson, I highly recommend the services of Nonprofit Resources to anybody planning a convention. Emma and Kristin Bennett had very large shoes to fill when the Spray Polyurethane Foam Alliance (SPFA) full time Convention Coordinator resigned a couple of years ago. They did just that, with apparent ease, last year while planning their first SprayFoam Convention. I say "apparent" ease, because they made it look easy but I know it took a lot of hard work behind the scenes on their part.

Emma and Kristin are an absolute pleasure to work with. They are attentive, responsive and very professional. They ask for help when appropriate, frequently provide excellent recommendations, and take the ball and run with it whenever they need to.

We just completed our second SprayFoam Convention under Kristin and Emma's leadership, and their product exceeded their original convention. I can't wait to see the improvements they bring to next year's convention, although I can't imagine it getting much better. We had, by far, record attendance at this year's convention, and I expect word to spread and attendance to increase next year. This absolutely would not be the case if it weren't for the hard work and expertise of Emma and Kristin. The rest of our committee volunteers, and SPFA staff, have all been here for several years.

I do not expect that we will ever plan another SprayFoam Convention without utilizing the services of Nonprofit Resources. They are that good!

Sincerely,

R. Todd Henderson
